SAMPLE NUMBER : 20110462**Received on : 18/11/2020****Name : #3 - Amvacol 30 tablets - Nutramax laboratories****Brand :****Batch :****Identifying Supplier :****Manufacturing date :****Ref. of the formula/raw material:****Best before end :****Storage conditions :****Packaging : TPS****Preservation upon receipt : Room Temperature**

| Analyses(Methods) | Results | Reference values | Unit |
|--|-----------|------------------|-----------------|
| Sulforaphane (after hydrolysis)⁽¹⁾ Date of analysis :27/11/2020 | (HPLC-UV) | | |
| Sulforaphane (après hydrolyse) | 8.94 | | mg/serving dose |

Comments :

The results expressed by tablet are obtained with theoretical mass of the tablet : 911mg

⁽¹⁾ Amount of sulforaphane obtain after 2h of hydrolysis of the product without enzyme addition. This is the expected amount of sulforaphane that could be produced from one serving of the product. Serving dose : 1 tablet.
