SAMPLE NUMBER : 20120196

Received on : 09/12/2020

Name : #28 - Brocco power - Wellena

Brand :

Batch :

Identifying Supplier :

Manufacturing date :

Ref. of the formula/raw material:

Best before end :

Storage conditions :

Packaging : TPS

Preservation upon receipt : Room Temperature

Analyses(Methods)	Results	Reference values	Unit
Sulforaphane (HPLC-UV)⁽¹⁾ Date of analysis :14/12/2020	(HPLC-UV)		
Sulforaphane	< LD		

Comments :

same as sample : 20110487

The results expressed by capsule are obtained with theoretical mass of the capsule : 630mg

⁽¹⁾ Limit of detection = 4.60mg/100g of product.

Amount of sulforaphane present without hydrolysis of the product. This is the amount of Sulforaphane contained in the product. Serving dose : 1 capsule.
